IDENTIFIERS	*Personal Independence

ABSTRACT

Intended for use as a curriculum guide, a source for objectives for the individualized educational plan, and an evaluation instrument to measure handicapped students' learning, the guide lists sequences of developmental tasks. Tasks are outlined for primary, intermediate, and secondary levels in the following areas (sample subskills in parentheses): reading (readiness, decoding, comprehension, study skills, language arts); mathematics (basic facts, money, time, measurement, calculators, metrics); health (personal care needs, clothing, drug knowledge); safety (traffic signals, first aid); sex education; science (body systems, energy sources); social skills; life skills (basic cooking); vocational reading (newspapers, application blanks); vocational math (taxes, banks, budgeting), and vocational preparation (on the job skills). - Edward Steitler

This work may be used as a curriculum guide, a source for objectives for the Individualized Educational Plan (IEP), and a comprehensive evaluative instrument to measure student growth. It is suggested that both mid-term and final evaluations be performed to provide an observable pattern of growth.

A coding system for record keeping is suggested below:

M = Mastered objective

X = Fails to master objective

S = Demonstrates some mastery of objective

At the end of the curriculum, space is provided for teacher comments, which should be dated.

Readiness																										
A. Body Parts																										
Points to named body part on self																										
Points to named body part in picture																										
Names body part when shown on a picture																										
Names missing body part in picture																										
B. Directionality																										
Points to object given spatial direction (left, right)																										
Points to object given spatial direction (in, on, under)																										
Demonstrates understanding of spatial concepts																										
in																										
on																										
under																										
right																										
left																										
in front of																										
behind																										
over																										
beside																										
near																										
through																										
above																										
below																										
States spatial relationships in simple sentences (I'm under the table)																										
Marks a paper following a spatial direction (Put an X on the line)																										
C. Auditory Motor Skills																										
Reproduces teachers simple clapping pattern																										
Claps hands in time to music																										
Given three patterns of dashes on chalkboard [-] [- -] [- - -] student selects pattern clapped by teacher																										

2-

Reading	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19
Identifies common environmental sounds without seeing																										
Reproduces clapped pattern with long and short claps																										
Using - for short claps and — for long claps, reproduces correct pattern (- — -)																										
Reproduces clapping pattern, listening to pattern played behind him																										
Reproduces names in slow motion(S-A-M)																										
Indicates if a word was present in a list of three one sylable words, orally presented (cake, bake, make, Did I say make)																										
Given orally a list of three words, and then a list of two of those words student supplies missing word																										
Given orally a list of numbers, student supplies missing number (2,4,5, What is missing)																										
Given orally a two sylable word, student claps once for each sylable																										
D. Auditory Discrimination																										
States if two environmental sounds are the same																										
States which sound is louder /softer																										
States which sound is longer/shorter																										
States if two words orally presented are the same or different																										
Locates different word in a list of three words, one word repeated																										
States if two simple sentences are the same/different																										
E. Auditory Memory																										
Repeats sequence of two numbers in order																										
Repeats sequence of two letters in order																										
Repeats sequence of two or more words in order																										
Repeats a three word phrase in order																										
Repeats a simple sentence in correct order																										
Repeats a simple sentence with same intonation																										

3.

Reading	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19
F. Visual Discrimination																										
Given an object, points to a picture of the same																										
Selects different object in set of objects																										
Selects different picture in set of pictures																										
Selects missing part in picture																										
States how two objects differ (size, shape, etc.)																										
States object name given flash presentation																										
States whether objects are the same, given flash presentation																										
G. Visual Memory																										
States name of object removed, given two objects initially																										
States name of object added, given one object initially																										
Describes an object after it has been taken away																										
Describes a picture after it has been taken away																										
Rearranges objects in initial order, after rescrambling																										
Correctly arranges objects after the arrangement is removed																										
H. Oral Comprehension																										
Selects correct picture, given name																										
Selects correct picture, given describing phrase																										
Categorizes objects, (animals,toys, etc.)																										
Given orally a word, selects a word from an oral list which means the same																										
Describes an emotion, given a stimulus picture																										
Describes an emotion, given a situation (dentist, finding money)

I Word Knowledge																										
Names colors																										
Identifies numerals																										
J. Co-ordination to paper																										
Holds crayon or pencil correctly																										
Colors simple shapes staying within lines																										
Draws simple pictures																										
Copies simple pictures																										
K. Decoding																										
Orally given a word, says another word with same initial consonant																										
Given consonant sound, says a word begining with that sound																										
States initial consonant of word orally presented																										
Given picture of letter, states letter sound of initial consonants																										
b

Given a picture and an incomplete word, writes consonant that completes word																										
Given a picture and two words, correctly selects appropriate word																										
Given orally a word, says another word with same final consonant																										
Given a final consonant sound, says a word ending with that sound																										
States letter name of final consonant of picture of an object																										
Given a picture of an object, writes final consonant																										
Given a word, substitutes another final consonant and says new word																										
Given a picture and an incomplete word, writes final consonant to complete new word																										
Given a sentence with an incomplete word, writes final consonant to complete word																										
Given two incomplete words, selects one final consonant that completes both words																										
Lists vowels																										
Picks out vowels from alphabet chart																										
Picks out consonants from alphabet chart																										
Picks out vowels from one or more words																										
Picks out consonants from one or more words																										
States short vowel sound in a word																										
States another word with same short vowel sound																										
Selects which words from a list have short vowel sounds																										
States which words from a list have the same short vowel sounds																										
Given a word with a short vowel, substitutes another short vowel and says new word																										
Given a picture of an object, says the short vowel in the objects name																										
Forms compound word with two known words																										
Decodes CVC words where vowels are short																										
Decodes words with initial consonant blends and short vowels																										
Decodes words where vowels are long																										
Decodes contractions withone letter missing (she's, isn't)

Decodes words with inflectional endings																										
Forms plurals by adding s and es																										
Identifies root words in inflected forms																										
Identifies variant consonant sounds of c																										
Identifies variant consonant sounds of g																										
Identifies variant consonant sounds of s																										
Decodes words with initial consonant blends																										
Decodes words ending VC silent e (ride)																										
Decodes long e and i sound of y																										
Identifies sounds of consonant digraphs in initial position																										
Decodes contractions with two or more letters missing																										
Identifies sound of consonant digraphs in final position																										
Determines number of sylables in a word																										
Decodes words in which final silent e is dropped before addind ending																										
Decodes x as ks, and cks as x																										
Decodes vowel digraphs (ay, ea, ei, oa, etc.)																										
Decodes words with final consonant blends																										
Decodes vowel dipthongs (oi, oy, ow, etc,)																										
Decodes silent g in gn																										
Decodes silent l in lk																										
Decodes silent h in gh																										
Decodes silent w in wr																										
Decodes silent b in mb																										
Decodes ph as f																										
Decodes suffixes ness, ful																										
Decodes prefixes dis, un, pre, re																										
Decodes 3 letter consonant blends (str, spr)

Decodes dg as in edge, judge etc.																										
Decodes ould words (could, would)																										
Decodes ough and ought																										
Decodes igh and ight																										
Comprehension																										
Names common objects in pictures																										
Names activities occuring in pictures																										
Answers questions concerning activities in pictures																										
Tells a story stimulated by a picture																										
Arranges picture stories in sequence																										
Listens attentively to story read orally																										
Identifies absurdity																										
Answers oral questions to oral readings																										
Restates simple story in own words																										
Recalls sequence of events																										
Matches words to picture definitions																										
Matches phrase to picture that describes it

Matches sentence to picture that describes it																										
Selects main idea of paragraph from two possibilities																										
Given a picture, states what might have happened before or next, and why																										
Given a fantasy selects improbable sections																										
Given two statements, selects factual one																										
Describes emotional reaction of story character																										
Given a description of an event, states probable cause																										
Given a description of an event, states possible consequences of the event																										
Designates the cause and effect of an event																										
Finds sentence which contains answer to a factual question																										
Finds answers to who, what, where, and when questions																										
Identifies speaker and person spoken to																										
Arranges sentences in sequence																										
Arranges paragraphs in sequence																										
Uses context to derive meaning of a new word																										
Recognizes fact and opinion																										
Titles an untitled section																										
States main idea of a selection																										
Draws conclusions from a selection

Traces and follows dots																										
Colors within designated areas																										
Reproduces basic shapes																										
Prints lower case letters																										
Prints upper case letters																										
Prints first name																										
Prints full name																										
Prints on line																										
Correctly spaces letters and words																										
Cursively writes lower case letters																										
Cursively writes upper case letters																										
Cursively writes first name																										
Cursively writes full name																										
Cursively writes on lined paper																										
Cursively writes on unlined paper																										
Uses correct letter size and spacing in cursive writing																										
Spells 55 dolch words																										
Spells 110 Dolch words																										
Spells 165 Dolch words																										
Spells 220 Dolch words																										
Spells days of the week																										
Spells months of the year																										
Uses capital letters in sentences when appropriate																										
Uses periods correctly																										
Uses commas correctly																										
Uses quotation marks correctly																										
Writes a simple sentence																										
Writes a question																										
Writes an answer to a question																										
Correctly spells most words in a simple sentence

Reads:																										
times																										
multiply																										
Solves simple problems with multiplication																										
Number Functions - Division																										
Knows 0-2 division facts using ÷ symbol																										
Knows 0-2 division facts using ⟌ symbol																										
Knows 3-5 division facts using ÷ symbol																										
Knows 3-5 division facts using ⟌ symbol																										
Knows 6-7 division facts using ÷ symbol																										
Knows 6-7 division facts using ⟌ symbol																										
Knows 8-10 division facts using ÷ symbol																										
Knows 8-10 division facts using ⟌ symbol																										
Divides 1 place dividend by 1 place divisor without remainder																										
Divides 2 place dividend by 1 place divisor without remainder																										
Divides 3 place dividend by 1 place divisor without remainder																										
Divides by 2 place divisor without remainder																										
Divides by 1 place divisor with remainder																										
Divides by 2 place divisor with remainder																										
Demonstrates concept of 0 in division																										
Checks manual division with calculator																										
Reads and defines:																										
divided by																										
into																										
Solves simple word problems using division																										
Fractions																										
Divides a whole into a given number of parts																										
Recognizes:																										
wholes																										
halves																										

19.

Math	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19
quarters or fourths																										
thirds																										
fifths																										
Identifies symbols for half ½ or 1/2																										
Identifies symbols for fourths ¼ or 1/4																										
Identifies symbols for thirds ⅓ or 1/3																										
Identifies symbols for fifths or 1/5																										
Adds fractions with common denominators																										
Adds fractions without common denominators																										
Defines mixed fractions																										
Defines proper fractions																										
Defines improper fractions																										
Converts mixed fraction to improper fraction																										
Adds mixed fractions with common denominators																										
Adds mixed fractions without common denominators																										
Subtracts fractions with common denominators																										
Subtracts fractions without common denominators																										
Subtracts mixed fractions with common denominators																										
Subtracts mixed fractions without common denominators																										
Subtracts mixed fractions involving borrowing																										
Multiplies simple fractions																										
Multiplies mixed fractions																										
Divides simple fractions																										
Divides mixed fractions																										
Defines:																										
Numerator																										
Denominator																										
Solves simple problem involving fractions																										
Decimals:																										
Identifies 10th place																										

20.

Identifies 100ths place																										
Identifies 1000ths place																										
Reads numbers in 10ths place																										
Reads numbers in 100ths place																										
Reads numbers in 1000ths place																										
Adds decimals with same place value vertically set up																										
Adds decimals with same place value horizontally set up																										
Adds decimals with varying place values vertically set up																										
Adds decimals with varying place value horizontally set up																										
Subtracts decimals with same place value vertically set up																										
Subtracts decimals with same place value horizontally set up																										
Subtracts decimals with varying place value horizontally set up																										
Subtracts decimals with varying place value vertically set up																										
Multiplies decimals with varying place valuesvertically set up																										
Multiplies decimals with varying place values horizontally set up																										
Divides decimals involving decimal dividends only																										
Divides decimals involving decimal divisors only																										
Divides decimals involving both decimal dividends and divisors																										
Explains relationship of decimals to fractions																										
Converts decimals to fractions																										
Converts decimals to percentage																										
Checks decimal functions with calculator																										
Solves simple problems involving decimals																										
Mental Computation																										
Adds to 10 with no visual cues																										
Subtracts from 10 with no visual cues																										
Adds to 20 with no visual cues																										
Subtracts from 20 with no visual cues																										
Solves using no visual cues, problems involving addition

subtraction																										
multiplication																										
division																										
Money:																										
Identifies common coins to $1.00																										
Identifies bill denominations to $20.00																										
Identifies value of common coins to $1.00																										
Identifies value of bill denominations to $20.00																										
Knows equivalent value of dime																										
Knows equivalent value of nickel																										
Knows equivalent value of quarter																										
Knows equivalent value of dollar																										
Demonstrates meaning of decimal point in money																										
Writes cents in ¢ form																										
Writes cents in $ form																										
Adds money in simple problems																										
Subtracts money in simple problems																										
Uses real money to make classroom purchases up to 25¢																										
Uses real money to make classroom purchases up to 50¢																										
Uses real money to make classroom purchases 50¢ to $1.00																										
Uses real money to make classroom purchases beyond $1.00																										
Makes change for purchases under 10¢ given a dime																										
Makes change for purchases under 25¢ given quarter																										
Makes change for purchases under 50¢ given half-dollar																										
Makes change for purchases under $1.00 given a dollar																										
Makes change for purchases beyond a dollar																										
Estimates to nearest dime																										
Estimates to nearest half dollar																										
Estimates to nearest dollar																										
Checks money problems with calculator

Spells the **Following**																										
time																										
clock																										
second																										
minute																										
half hour																										
hour																										
AM																										
PM																										
day																										
week																										
month																										
year																										
calendar																										
date																										
Names four seasons																										
Names days of the week																										
Names months of the year in order																										
Uses calendar to find dates																										
Finds date one week from date																										
Finds date two weeks from date																										
Finds date one month from date																										
Finds date one week ago																										
Finds date two weeks ago																										
Finds date x days from date																										
Finds date x days ago																										

25.

Math

	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19
Tells time to the hour																										
Tells time to the half hour																										
Tells time in five minute marks after the hour																										
Tells time on five minute marks before the hour																										
Tells time on one minute marks after the hour																										
Tells time on one minute marks before the hour																										
Tells digital time																										
Converts digital time to time before/after the hour																										
Converts time before/after the hour to digital time																										
States equivalent time terms																										
30 min. = ½ hour																										
60 min. = 1 hour																										
24 hrs. = 1 day																										
7 days = 1 week																										
28,30,or 31 days = 1 month																										
12 mos. = 1 year																										
365 days = year																										
Reads abbreviations																										
sec.																										
min.																										
hr.																										
wk.																										
mo.																										
yr.																										
Reads in digital time, the times for																										
begining school																										
class periods																										
lunch periods																										
leaving school																										
Reads time schedule (e.g. bus, train, plane)																										
States the number of hours betweeen two given times in hours only																										

Math	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19
hours and fractional parts																										
Estimates time to perform task																										
Begins task early enough to finish on time (e.g. cooking, travel)																										
Measurement																										
Differentiates the following concepts																										
large - small																										
big - little																										
near - far																										
slow - fast																										
high - low																										
more - less																										
hot - cold																										
Reads and defines:																										
inch																										
foot																										
yard																										
ruler																										
yardstick																										
teaspoon																										
tablespoon																										
pint																										
quart

Measures to a 1/16 inch mark																										
Reads degrees on a themometer																										
Reads pounds on a scale																										
Measures with objects named in recipe teaspoon																										
tablespoon																										
cup																										
½ cup																										
1/3 cup																										
½ cup																										
Recognizes different geometric shapes																										
Defines perimeter																										
States formula for perimeter of a square																										
rectangle																										
Computes perimeter																										
Defines area																										
States formula for the area of a square																										
rectangle																										
Computes area																										
States practical application and solves problems involving perimeter																										
area																										
Measures material needed for clothing																										
Measures height, width, and depth of common appliances																										
Measures windows and doorways																										
Measures and marks wood for cutting																										
Uses map scale to estimate mileage																										
Knows own measurements for clothes neck

sleeve																										
chest																										
bust																										
waist																										
hip																										
inseam																										
hat																										
shoe																										
sock																										
coat																										
shirt																										
sweater																										
Indicates temperature of a healthy person																										
Indicates what constitutes a fever																										
Indicates temperature of a room																										
Can set thermostat to various temperatures																										
Demonstrates use of clinical thermometer																										
Demonstrates use of oven thermometer																										
Demonstrates use of meat thermometer																										
Calculator																										
Identifies and states function of a calculator																										
Locates the following keys																										
+																										
−																										
÷																										

Math

Defines meaning of numerical prefixes kilo																										
hecto																										
deca																										
deci																										
centi																										
milli																										
Converts from one unit to another (2 meters = 200 cm.)																										
Measures using metric system																										

Health

	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19
Primary:																										
Takes care of personal needs and sanitation																										
Keeps hands and face clean																										
Washes hands after toileting																										
Explains importance of toothbrushing																										
Lists health professionals who should be seen regularly																										
Doctor																										
Dentist																										
Eye Doctor																										
Categorizes foods as																										
meat/fish																										
vegetables/fruits																										
dairy products																										
cereals/grains																										
Lists meals of the day																										
Lists typical foods eaten at each meal																										
Intermediate:																										
Practices regularity in washing face at school																										
Showers and/or bathes regularly																										
Brushes teeth after meals																										
Shampoos hair regularly																										
Cleans and trims fingernails and toenails																										
Uses deodorant																										
States duties of																										
doctor																										
dentist																										
eye doctor																										
Explains importance of check-up at medical professionals																										
Categorizes foods as																										
meats/fish																										
dairy products																										

33.

vegetables/fruits																										
cereals/grains																										
Explains balanced meal																										
Lists some junk foods																										
Defines:																										
fats																										
protein																										
vitamins																										
minerals																										
Secondary:																										
Bathes and/or showers regularly																										
Cleans outer ear safely and regularly																										
Uses deodorant regularly																										
Practices appropriate shaving technique																										
face																										
underarms																										
legs																										
Shows proper application of cosmetics day/night																										
Shampoos according to hair conditions																										
States hair type (dry, normal, oily)																										
Brushes and combs hair regularly in proper setting																										
Identifies and acts upon symptoms of																										
dandruff																										
head lice																										
States causes of tooth decay																										
States importance of regular dental visits																										
Recognizes causes and remedies of halitosis																										
Changes hoisery daily																										
States importance of washing hands after lavatory use																										
Identifies skin type (dry, normal, oily)																										
Recognizes and remedies own symptoms of acne																										

Health	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19
Wears clothing that is well co-ordinated																										
Recognizes common illnesses, their seriousness, and symptoms																										
Follows correct procedures for																										
allergies																										
headaches																										
earaches																										
toothaches																										
stomach aches																										
common colds																										
flu																										
venereal disease																										
States how diseases are spread																										
States basic first aid procedures for minor cuts and burns																										
States the effect of drug usage																										
physical changes																										
psychological changes																										
behavioral changes																										
legal aspects																										
Identifies and states slang name for abused drugs commonly found in the community																										
cocaine																										
marijuhana																										
amphetamenes																										
barbituates																										
halucinogens																										
alcohol																										
Explains ways to resist pressure to use drugs																										
Lists some effects of cigaret smoking																										
Defines smoking vocabulary																										
tar																										
nicotine																										

Health	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19
Explains importance of balanced meals																										
Defines and explains the function in the diet of																										
calories																										
fats																										
proteins																										
carbohydrates																										
vitamins																										
minerals																										
Plans a menu for a week																										
Explains proper preparation and storage of																										
fresh meats																										
frozen meats																										
fresh vegetables																										
frozen vegetables																										
canned foods																										
Demonstrates ability to properly store left overs																										
Demonstrates knowlege of when foods are spoiled																										
Demonstrates proper home cleaning methods																										
Uses correct cleaning agent for various surfaces																										
Explains the importance of child health care																										
Explains some duties a parent has toward an infant																										
nutrition																										
injury-free environment																										
communicable diseases																										
immunization																										

(See Sex Education section for more in this area)

Safety	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19
Primary:																										
Recognizes authority																										
Follows fire drill procedures																										
Safely boards and exits school bus																										
Uses safe behavior on playground																										
Reports emergencies to person in charge																										
Safely enters and leaves school																										
Stays away from objects of danger																										
Stays out of medicine cabinet																										
Rides bicycle safely																										
Will not accept gifts or rides from strangers																										
Stays away from stray pets																										
Picks up belongings																										
Obeys pedestrian traffic signals and rules																										
Recognizes danger of wet floors																										
Sits in seat with all legs on the floor																										
Explains purpose of car seat belt																										
States basic safety rules concerning swimming and boating																										
Intermediate:																										
Treats simple abrasions																										
Avoids inflamables																										
Practices fire prevention																										
Recognizes civil defense signals																										
Lists duties of policeman																										
Demonstrates what to do if lost																										
Explains dangers of panic																										
Safely uses hand tools																										
Lists hazardous items (refrig,plastic bag,knives, guns,poison matches, appliances, medicines, electricity, etc.)																										
Can call in fire alarm (phone, alarm, in person)																										

37.

Safety

Explains dangers of false alarm																										
Safely rides sled, tobaggan, snowmobile																										
Explains dangers of thin ice																										
Defines frostbite																										
Lists ways to avoid frostbite																										
Explains procedures to follow during electrical storm																										
indoors																										
outdoors																										
Safely uses power lawn mower																										
Secondary:																										
Can give assistance in case of accident																										
Stops bleeding by elevation and pressure																										
Understands majority of first aid procedures																										
Uses flamable liquids with care																										
Can replace an electric fuse																										
Explains dangers of improper storage of rags, oil, etc.																										
Reads and obeys																										
danger																										
poison																										
caution																										
keep out																										
Can give artificial respiration																										
Identifies poison ivy, poison oak, dangerous snakes and spiders																										
Operates power tools safely																										
Can put out small fires																										
Explains difference between electric,grease, and wood fires																										
Lists some hazards to babies and small children																										
Observes job safety rules																										
Explains proper uses of medication																										

Sex Education

Primary																										
Knows own sex																										
Knows sex of parents, siblings, classmates																										
Explains that life comes from life																										
Explains that all animals produce babies of the same kind																										
Explains that there must be a mother and father before a baby can be born																										
Explains that there are physical differences between boys and girls																										
Explains that boys become men, and girls become women																										
Explains that eveyone needs privacy																										
Explains that a person should not touch a person that he/she does not know																										
Explains typical family structure																										
Explains in simplistic terms where babies come from																										
States correct names for body parts																										
Intermediate																										
States basic differences between men and women																										
Defines puberty																										
Explains changes occuring in puberty																										
hair																										
voice																										
skin																										
height																										
weight																										
sexual development																										
States correct name for all body parts																										
Defines menstruation																										
Explains cycle concept of menstruation																										

Sex Education

	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19	Mid-term 19	Spring 19
Knows when, how, and does perform cleanliness during menstruation																										
Identifies:																										
Sanitary pad (belted, beltless)																										
tampon																										
mini pad																										
Explains in more specific terms the birth process in humans																										
States the care required of an infant																										
States duties of a parent toward a child																										
Explains benefits of family structure for a child																										
Secondary																										
States correct names for body parts																										
States function of genitals in reproduction																										
Explains fully the conception process																										
Explains phases of pregnancy																										
Explains birth process (stages of labor)																										
Explains necessity of proper pre-natal care																										
Explains dangers of drugs, smoking, and/or drinking during pregnancy																										
Lists some tasks that a parent must perform for a newborn																										
Explains venereal disease																										
Lists various methods of contraception																										
States effectiveness of various methods of birth control																										
States side effects of various methods of birth control																										
States necessity for cleanliness, especially genital																										
Lists sources of information regarding sex																										

Sex Education

Primary:																										
Identifies common animals																										
Identifies common plants																										
Participates in caring for classroom or family pets																										
Identifies sun, moon, stars																										
Explains effect of sun on weather																										
Identifies seasons in relation to weather																										
Gives oral weather report based on daily conditions																										
Identifies location of body organs																										
brain																										
heart																										
lungs																										
stomach																										
Intermediate :																										
Identifies common plants, flowers, and trees from which we get food																										
Grows plants																										
Identifies common animals from which we get food																										
Identifies common animals and plants from which we get clothes																										
Explains that earth is large - composed of land, air, sea																										
Explains that sun, moon, and stars are far from earth																										
Explains what a planet is																										
States the importance of weather to jobs (construction,nursery)																										
Explains the function of the bones																										
Explains the function of the muscles																										
Secondary:																										
States relationship of plants to man																										
food																										
clothing

oxygen																										
shelter																										
surroundings																										
States the relationship of animals to man																										
food																										
clothing																										
companionship and sport																										
work																										
Identifies body systems and their functions in humans:																										
digestive																										
respiratory																										
circulatory																										
nervous																										
excretory																										
hormonal																										
skeletal																										
reproductive																										
Recognizes weathers effect on crops																										
Identifies seasons and states characteristics of each																										
Identifies and defines weather vocabulary:																										
temperature																										
thermometer																										
thermostat																										
humidity																										
Identifies sources of energy																										
fossil fuels																										
geo-thermal																										
solar																										
nuclear																										
Identifies the reasons for conservation of natural resources																										
oil and gasoline																										
natural gas

States name																										
States age																										
Finds way around school																										
Identifies his and others belongings																										
Identifies major body parts																										
Participates in sharing and taking turns																										
Observes classroom and school rules																										
Plays sucessfully in a small group																										
Uses rules and words of courtesy																										
Locates own home																										
Performs classroom chores																										
States mothers and fathers name																										
States home address																										
States phone number																										
States birthdate																										
Names all family members																										
Displays personal preference in games, food, clothes, friends																										
Recognizes when a task is completed																										
Works independently for 10-15 minutes																										
Uses good table manners																										
Accepts authority: teacher, principal, and other adults																										
States what to do when lost																										
Distinguishes between satisfactory and unsatifactory behavior																										
Accepts constructive criticism																										
States own feelings																										
Practices punctuality																										
Practices habits of good health and grooming																										
Identifies important people by title																										
Locates and can use fire alarm																										
Basically states who runs schools, homes, towns, country																										
Participates in cooperative efforts

Practices every day courtesies																										
Can make introductions																										
States consequences of choosing company unwisely																										
Expresses own strengths																										
Expresses own weaknesses																										
Participates at school functions																										
Explains importance of honesty,tolerance																										
Explains cycle of life (birth to death)																										
States teenagers rights and responsibilities																										
Explains consequences of law breaking																										
Explains felony																										
Explains misdemeanor																										
Locates community on county,state, and national maps																										
Identifies local form of government																										
Names local officials (mayor, alderman, chief of police)																										
Identifies New York State form of government																										
Locates New York State on a map																										
Locates on New York State map																										
major cities																										
major lakes and rivers																										
counties																										
towns																										
Identifies federal form of government																										
Identifies function and name of federal officials																										
President																										
Vice President																										
U.S. Senators from New York																										
U.S. Congressman from local district

Career awareness and job selection:																										
Identifies work tasks that can be done in class/school																										
States some ways to be a good worker																										
Identifies some community helpers																										
States some job duties of some community helpers																										
Identifies job titles of some school workers																										
Lists some job duties of some school workers																										
Lists some jobs performed in the community																										
Lists some job duties of some community workers																										
States one or more jobs that he/she is interested in																										
Gives examples of how workers depend on one another to do their job																										
States in a story to the class why he/she would like to have some particular job																										
States how workers help the community																										
Lists ten different jobs that people have																										
Describes how it feels to finish a task																										
Describes how it feels to get a good mark on school work																										
Lists factors that make for success in school																										
Lists factors that make for failure at school																										
Realistically evaluates academic skills																										
States areas of academic strength and weakness																										
Evaluates skill in non-academic areas (strength,personality)																										
Relates skills to possible occupational areas																										
States vocational interest																										
States interest in terms of working with people, things,etc.																										
States coursework that applies to vocational area of interest																										
States non-academic learning that applies to interest area																										
States if any further training/education is necessary for interest area
